

Conklin Single-Ply Membrane Roofing System

Strength, longevity, and value — all rolled into one!

Conklin's Single-Ply Membrane Roofing System is highly resistant to a broad range of chemicals, helping to extend the life of the roof, and offer outstanding reflectivity and energy-efficiency. A Conklin Single-Ply Roof will deliver these benefits for years to come:

- Stops leaks with superior waterproofing
- Provides first-rate resistance to wind and hail
- UL fire rated
- Increases energy efficiency and lowers utility expense
- Can be applied in all seasons, performs in all climates
- 20 year warranty available

Recommended for application over roof decks made of:

- Concrete
- Wood
- Steel

Flexion®

Recognized by major code approval agencies

This Elvaloy®-modified PVC provides rugged protection from the elements. Its unique chemical formulation is naturally fire-resistant, making Flexion an excellent choice for both new and re-roofing applications.

Professional application of a Conklin Single-Ply Membrane Roofing System

1. Remove all loose dirt and debris and install board stock.

2. Apply membrane, overlapping seams in the direction of water run-off.

3. Weld seams by hand or with a robotic welder.

4. Seal free edges of membrane with urethane sealant.

A white Conklin roof is the smartest way to stay in the black

Reduce cooling expense by up to 30%

The average roof absorbs a large portion of the sun's ultraviolet rays as heat. Conklin's white Single-Ply Roofing System reflects 84% of the sun's heat, cooling your building and saving you as much as 30% in air conditioning costs.

Recoup your costs

A great return on investment is another important reason to install a Conklin Single-Ply Roofing System. Many satisfied building owners discover that a Conklin roof pays for itself during the warranty period in lower air conditioning costs. Federal tax rebates, tax credits and deductions may also offset your investment. Check with your local utility company, tax advisor, and energystar.gov for additional details.

Look forward to years of trouble-free protection, low maintenance

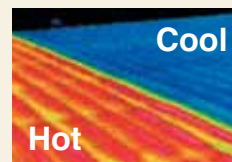

Conklin's Single-Ply Roofing System provides leak-free protection and exceptional energy savings for years. Flexion maintains maximum reflectivity and energy savings because it's surfaces are resistant to dirt and discoloration. Annual or bi-annual cleaning is all that's needed to keep Flexion white.

Eliminate future roof tear-offs

Years from now, when it's time to renew the superior protection of your Conklin Single-Ply roof, our Membrane Coating System will do the job. Conklin's elastomeric coatings provide a new, cost-effective solution for repairing and preserving approved membranes, resulting in improved energy savings. In most cases, multiple recoats can be applied for as long as you own your building, saving you the expense of a new roof. With each recoat, our material warranty may also be extended.

Enjoy peace of mind with our Warranty Program

Conklin's optional warranty program includes a non-prorated material warranty.

Conklin's highly-reflective roof systems have been providing quality solutions to the roofing market since 1977.
