

Rugged, hail-rated roof lowers energy costs

Conklin's Fabric-Reinforced Roofing System will give your building trouble-free protection. Our seamless acrylic coating is tough, flexible, and fabric-reinforced, and is recommended for both new and existing roofs. Our Fabric-Reinforced Roofing System will deliver all these benefits for years to come:

- Stops leaks with superior waterproofing.
- Offers excellent wind and hail protection.
- Increases energy efficiency and lowers utility expense with its cool, white reflective surface.
- May save cost of tear-off and disposal.
- Extends the life of your existing roof.

Recommended for application over these surfaces:

- EPDM/BUR/Mod-Bit
- New plywood
- Concrete
- Composite Decking
- ISO Board
- Metal roof assemblies

Professional application of a Conklin Fabric-Reinforced Roofing System

Conklin's Fabric Reinforced roofing system is extremely versatile and can be applied to many different types of roofs. A Conklin contractor will cover the proper procedure for application of our Fabric Reinforced system to your particular roof substrate.

A white roof is the smartest way to stay in the black

Reduce cooling expense by up to 30%

The average roof absorbs a large portion of the sun's ultraviolet rays as heat. Conklin's white Fabric-Reinforced Roofing System reflects 84% of the sun's heat, cooling your building and saving you as much as 30 percent in air conditioning costs.

Recoup your costs

A great return on investment is another important reason to install a Conklin Fabric-Reinforced Roofing System. Many satisfied building owners discover that a Conklin roof pays for itself during the warranty period in lower air conditioning costs. Federal tax rebates, tax credits and deductions may also offset your investment. Check with your local utility company, tax advisor, and www.energystar.gov for additional details.

Look forward to years of trouble-free protection, low maintenance

Conklin Fabric Reinforced Roofing Systems provide leak-free protection and exceptional energy savings

for years, often exceeding the warranty period. They maintain maximum reflectivity and energy savings because their surfaces are resistant to dirt and discoloration. Annual or bi-annual cleaning is all that's needed to keep them white.

Eliminate future roof tear-offs

Years from now, when it's time to renew the superior protection of your Conklin roof, a simple recoat will do the job. In most cases, multiple recoats can be done for the entire life of your roof, saving you the expense of a new roof. With your recoat, our material warranty may also be extended several years. Your Conklin Roofing Contractor will inspect your roof and advise you of the best way to restore the protective envelope of your building.

Enjoy peace of mind with our Warranty Program

Conklin's optional warranty program includes a non-pro-rated material warranty.

Testing & Approvals

Conklin is a member of National Roofing Contractors Association (NRCA), Spray Polyurethane Foam Alliance (SPFA), a division of the American Plastic Council, E.P.A. Energy Star® and the Cool Roof Rating Council (CRRC). Our products meet or exceed the standards set by these organizations.

Conklin is a charter member of the Energy Star Program. Our products meet criteria established by EPA/DOE for energy efficiency and reflectivity.

Meets requirements of reflectivity and emissivity for inclusion in the CRRC program.
